SUMMARY

I am an Information Services professional with jack-of-all-trades application experience: coding, documenting, analyzing, configuring, reviewing, training, and managing development.

I have a love of coding and relish learning more on the job.

EXPERIENCE

Technical Analyst **MDRC**

New York, NY — 11/2011 - 06/2014

Application development and application support at a research non-profit.

- Configuration & maintenance of business applications
- Requirements analysis, communication & technical writing
- Custom programming for application development projects:
 - C# console applications for simple business tasks
